***P3a. Description:** (Describe resource and major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

194-198 5th Street (also 900-906 Howard Street) is located on a 30' x 70' rectangular lot on the northwest corner of 5th and Howard streets. Built in 1912, 194 5th Street is a 5-story mixed-use building designed in a style consistent with the Edwardian period. The rectangular-plan building, clad in brick at the storefront and smooth stucco on the rest of the facade, is capped by a flat roof. The foundation is concrete. The primary façade faces east and includes 3 structural bays. Entrances include a fully-glazed wood door and fully-glazed, paired aluminum doors. Typical fenestration includes fixed-plate aluminum-sash windows and double-hung wood-sash windows, some set in an angled bay. Architectural details include belt courses, a metal fire escape, an angled corner entry, spandrel panels, and a projecting cornice.

The building appears to be in good condition.
